EDUCATION

Institute of Engineering and Technology

Bachelors of Engineering in Electronics and Instrumentation
CGPA: 8.2

Indore

Nov 2020 - May 2024

EXPERIENCE

TravelArrow | Software Engineer

Remote | May 2024 - Present

- Developed and integrated a car rental feature utilized by over 10,000 daily users.
- Currently leading a recently acquired company with 75,000+ users, achieving a 33% conversion rate by transitioning 25,000+ users to the updated product with new features and services.
- Successfully transformed the acquired company from a non-profit to a revenue-generating entity, contributing to an overall revenue growth of 2.5%.

ASSENT Steel Industries | Software Engineer

Remote | Aug 2023 - Mar 2024

- Designed and developed a cross-platform mobile app using React Native for internal communication for all employees, available on both iOS and Android.
- Developed an Admin Panel using Next.js for efficient user management, monitoring active logins, sending notifications, and creating multilingual posts.
- Scaled app adoption to 1,500+ daily active users, supporting a diverse and multilingual workforce across different age groups.

Influence Exchange Group | Freelance Software Engineer

Remote | May 2023 - Present

- Designed and managed dynamic, modern websites for high-profile influencer and marketer events across Dubai, KSA, Indonesia, Qatar, and India, aligning with the energetic atmosphere of the events.
- Developed web platforms for four event series, tailored to the preferences of influencer and marketer audiences.
- Achieved over 80,000+ total visits across all event websites, contributing to increased event engagement and visibility.
